INPATIENT TRACKER
BY
PTSCOUT

PtScout (Inpatient Tracker) provides secure, speedy and simplified mobile software solution to health care providers with an electronic product to record inpatient hospital visits and procedure details that can be used for billing purposes.

EFFICIENT, EASY AND EFFECTIVE WAY OF POINT OF CARE CAPTURE

Inpatient Tracker was architected and developed in collaboration with experienced medical practitioners to provide efficient solution for easy-to-use, reliable and cost effective charge capture mobile application that reduces the Physicians time and save thousands of dollars in missed billings.

OUR PRINCIPLES

● Logic - Use common sense - What they do daily, transferred to their phone
● Empathy for the health care providers - We know what they need
● Ethical - HIPAA secure - Two levels of security (phone & app password)

TESTIMONIALS

DR. SHINDE, GASTROENTEROLOGIST
Neat App. Very easy. I can bill same day or end of the week and it has lot of flexibility

DR. MURALI, PAIN MANAGEMENT
Working very well, user friendly and easy to use. Using analytics I can look at my productivity
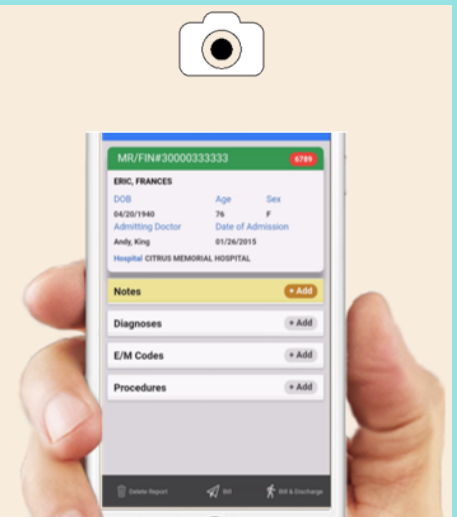

DR. ANSARI
No delay in billing on patient encounters, Very intuitive and no reason to misplace the cards. App is really helpful.

Three Easy Steps

3

### SCAN THE PATIENT CARD IN SECONDS
